KEY TAKEAWAYS

- **Semi-detached remains the tightest segment**, holding at 3.1 months of supply with its \$400K–\$500K band the fastest-moving price tier of any type at 44% sold (34 sales).
- **Condos stay the city's only buyer's market** at 5.2 months of supply, though the \$200K–\$300K tier still moved 157 units at 22% sold — the largest volume of any condo band.
- **City-wide activity held flat this week**: active listings at 6,020, sales at 1,625 over 30 days, months of supply steady at 3.7 — source data hasn't refreshed since last check.
- **Detached stays balanced at 3.2 months of supply** with 31% sold overall, though its \$400K–\$500K tier continues to lead the type at 45% sold.
- **Luxury condos remain frozen** — 22 active listings over \$1.5M, zero sales — while August's velocity confirms the cooldown: 54 sales/day, down 23% from 70/day two years ago.
