KEY TAKEAWAYS

- **Supply tightened to 3.7 months**, down from 3.8 last week — sales rose 47 to 1,667, outpacing a 33-listing rise in inventory.
- **Condos are still the city's only buyer's market at 5.7 months**, but improving — MOS eased from 6.0 on 15 more sales week over week.
- **Semi-detached is the tightest segment** at 3.1 months, and its \$400K–\$500K band is the fastest-moving price point in the city at 49% sold.
- **The \$400K–\$600K band keeps carrying the market**: 485 of 1,667 city-wide sales — 29% — came from that window.
- **Luxury condos remain frozen** — 23 active listings over \$1.5M produced zero sales again — while detached \$1M–\$1.5M homes sold 116 units at 2.7 months of supply.
